

ACUTE CARDIAC CARE

Middle East 2016 in Abu Dhabi

Wednesday - 26 October, 2016
Jumeirah at Etihad Towers, Abu Dhabi
United Arab Emirates

Welcome to Acute Cardiac Care Middle East 2016 in Abu Dhabi

This one-day course is the result of a unique collaboration between **Acute Cardiac Care Working Group of the Emirates Cardiac Society, Omani Heart Association and the Acute Cardiac Care Association (ACCA) of the European Society of Cardiology.**

We aim to create an exciting forum, in which clinicians involving in **Acute Cardiac Care** can present and discuss the most up-to-date guidelines, research, and their own experience.

The course will be run by eminent experts of the **ACCA** who are Europe's renowned experts in the fields. And it will be indeed your chance to meet them, learn from them and their expertise.

The host city, Abu Dhabi, not only offers a world-class destination for congresses and meetings but also year-round sunshine, pristine beaches and world-class hospitality making it a top destination for all travelers.

We would like to encourage you all to support and participate in **ACCA 2016.**

Thank you very much and we look forward to welcoming you to Abu Dhabi, United Arab Emirates!
