

7th Emirates Cardiac Society Congress

in conjunction with

5th Scientific Meeting of the World Society
for Pediatric and Congenital Heart Surgery

27 to 30 October 2016, Jumeirah at Etihad Towers, Abu Dhabi

Guidelines for Poster Presentation

- The poster should be a visual presentation of your submitted abstract and should meet the following criteria:
- Title: The title should be the same as in the submitted abstract.
- Poster Size: Your poster should fit on a poster board that is 100 cm wide x 197 cm high. The exact poster dimensions are up to poster presenters, but it is recommended to be no larger than 90 cm wide x 135 cm high for ease of vertical viewing.
- Use a font size that can be read easily from a considerable distance (4 feet or more). Try using a type size between 14-20 pt. The title should be larger than the rest of the text. Select a legible font such as Times New Roman, Times Roman, Baskerville or Palatino.
- Use pictures, symbols and color. Figure legends are essential and should be short but informative. If using graphs, they should have a short heading. For visual effect, we recommend that graphs be no smaller than 12cm x 18cm.
- Photographs should be no smaller than 12cm x 18cm.
- The message that your poster contains should be clear and understandable without the requirement of oral explanation. If relevant, methods should be presented simply and concisely.
- Results should be presented graphically if possible. Avoid large tables of data. Results should be in line with those originally submitted in your abstract.
- Use the space to attract your audience for discussion, not to present complex details of methods and results.
